

## LEVEL LOCK PLUS™

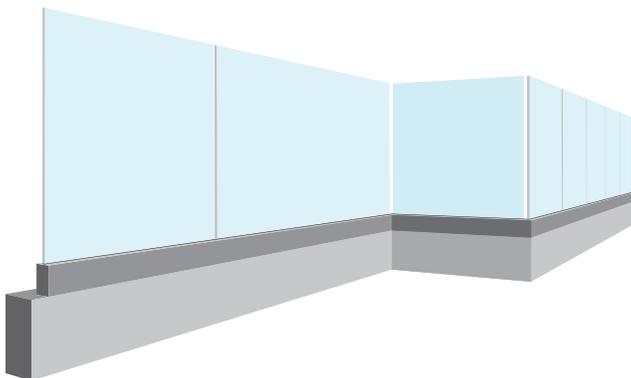

Where Fast Installation Meets Innovative Adjustment.

Let the light into any application with our high-quality glass railing solutions.

## GLASS SHOE RAILING SYSTEM

Our Level Lock Plus™ system is designed for easy installation and a perfect glass alignment every time.

A post-less system with fully concealed components allows for beautiful sight lines that makes Level Lock Plus an ideal glass railing solution.

## WHY CHOOSE LEVEL LOCK PLUS™?

Glass tilting capabilities up to 2° in either direction

Grooves in the inner channel hold mechanisms in place during glass installation

Mechanisms can be safely installed from either side of the base shoe

Easy access to tightening fasteners from the top of the shoe

Optional alignment tabs allow for easy alignment of shoe segments at any desired angle

## ADVANCED DESIGN FOR A SIMPLE INSTALLATION

---

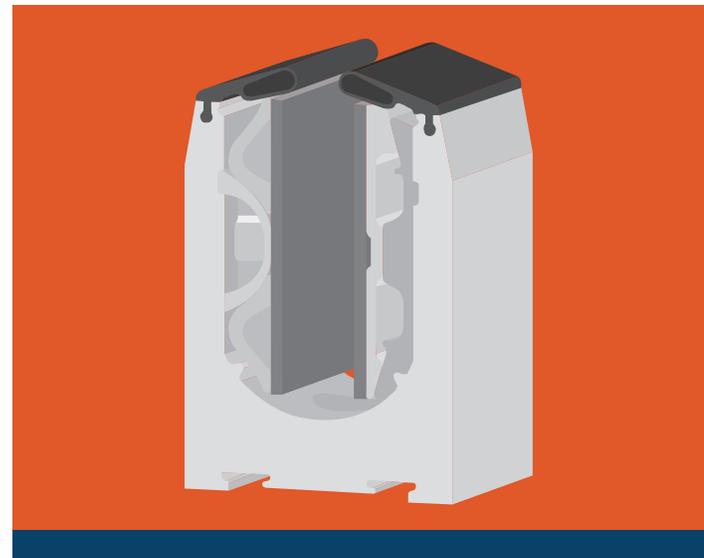

The mechanism's innovative technology supports glass being tilted 2° in either direction to ensure an easy, precise alignment. This advanced flex technology allows the installed glass to better withstand environmental changes that could damage the panels.

The shoe offers a grooved inner channel that allows the mechanisms to be installed on either side of the base shoe. The mechanisms' tightening fasteners are accessible at the top of the shoe to allow for a safe and easy installation.

## WHAT TO EXPECT WITH YOUR ORDER

---

System is sold in 10 and 20 ft. kits that include the mechanisms, base shoe and alignment tabs only. Additional purchasing options include aluminum or stainless steel cladding, gaskets, end caps and more.
