

The American Institute of Architects  
Continuing Education Systems  
AIA/CES Registered Provider Program Summary Handout

**Provider:** The Wagner Companies  
**Program #:** WAG102  
**Program:** Contemporary Railing Systems  
**Length:** 1 Hour  
**Credits:** 1 LU Hour HSW  
**HSW:** Yes

**Description:** This program will introduce concepts of contemporary design for railing systems. The program will also address code and safety issues related to hand and guardrail as well as opportunities for sustainability and LEED credits.

**Learning Objectives:** After completion of this course, participants will have working knowledge of:

- *Contemporary Railing Systems:* post-mounted systems, cable railing, structural glass railing and adding illumination
- *Code and Safety Issues:* accessibility, code requirements, structural and testing criteria, and sustainability and LEED considerations

**Instruction Method:** The CES facilitator utilizes a slide presentation to provide an overview of current issues related to handrail. It will be an interactive session that encourages feedback and questions.

**A/V Needs:** Electrical power and screen for presentation. The CES facilitator will supply laptop and projector.

**Target Audience:** Architects, specifiers, interior designers, and other design professionals. The ideal audience size is 10-40 people. This program meets the needs of professionals at every experience level.

**Facilitator Qualifications:** All The Wagner Companies' CES facilitators have been trained on CES guidelines and presentation skills. In addition, they receive continuous in-depth training in the field and are considered industry experts.

**Cost:** There is no cost to bring this program into your firm or chapter meeting.
